Attention: Deportation Officer Toliver

Re: GORDON, Mohamed Lamin Leslie A  
A061 140 813  
**REQUEST FOR PAROLE OR  
MEDICAL ATTENTION**

Dear Officer Toliver:

This Firm now represents the above-referenced Respondent, currently detained at the MCPC. I am enclosing form G-28 entering my appearance on his behalf. His case is on appeal to the Board of Immigration Appeals and remains pending at this time. Mr. GORDON has been in ICE custody since his release by the State.

His family and I are concerned about Mr. GORDON's medical condition. He was injured while in State custody during Hurricane Harvey. Water had entered the jail, and he fell as he was being rushed along by the facility personnel. As the attached documents show, his head was injured resulting in a complete retinal detachment in his right eye. Surgery has been recommended in November 2018 and again in January of this year. Although this accident happened in 2017, the surgery has yet to be authorized and he suffers continuously.

Our request is quite simple: ICE should either release him on bond so that he may seek the required surgery, or provide the surgery to him at ICE expense. Continuing to detain him without proper medical treatment of his condition is unacceptable.

I know you are busy, but I am sure you will understand that my client's eyesight is

**Part 4. Client's Consent to Representation and Signature**

**Consent to Representation and Release of Information**

I have requested the representation of and consented to being represented by the attorney or accredited representative named in **Part 1.** of this form. According to the Privacy Act of 1974 and U.S. Department of Homeland Security (DHS) policy, I also consent to the disclosure to the named attorney or accredited representative of any records pertaining to me that appear in any system of records of USCIS, ICE, or CBP.

**Part 4. Client's Consent to Representation and Signature (continued)**

***Options Regarding Receipt of USCIS Notices and Documents***

USCIS will send notices to both a represented party (the client) and his, her, or its attorney or accredited representative either through mail or electronic delivery. USCIS will send all secure identity documents and Travel Documents to the client's U.S. mailing address.

If you want to have notices and/or secure identity documents sent to your attorney or accredited representative of record rather than to you, please select **all applicable** items below. You may change these elections through written notice to USCIS.

1.a. ☐ I request that USCIS send original notices on an application or petition to the business address of my attorney or accredited representative as listed in this form.

1.b. ☐ I request that USCIS send any secure identity document (Permanent Resident Card, Employment Authorization Document, or Travel Document) that I receive to the U.S. business address of my attorney or accredited representative (or to a designated military or diplomatic address in a foreign country (if permitted)).

**NOTE:** If your notice contains Form I-94, Arrival-Departure Record, USCIS will send the notice to the U.S. business address of your attorney or accredited representative. If you would rather have your Form I-94 sent directly to you, select **Item Number 1.c.**

1.c. ☐ I request that USCIS send my notice containing Form I-94 to me at my U.S. mailing address.

***Signature of Client or Authorized Signatory for an Entity***

2.a. Signature of Client or Authorized Signatory for an Entity  
➡ Mohamed Gordon

2.b. Date of Signature (mm/dd/yyyy) 7-26-2019

**Part 5. Signature of Attorney or Accredited Representative**

I have read and understand the regulations and conditions contained in 8 CFR 103.2 and 292 governing appearances and representation before DHS. I declare under penalty of perjury under the laws of the United States that the information I have provided on this form is true and correct.

1. a. Signature of Attorney or Accredited Representative

1.b. Date of Signature (mm/dd/yyyy)

7/26/2019

2.a. Signature of Law Student or Law Graduate

2.b. Date of Signature (mm/dd/yyyy)

**Part 6. Additional Information**

If you need extra space to provide any additional information within this form, use the space below. If you need more space than what is provided, you may make copies of this page to complete and file with this form or attach a separate sheet of paper. **Counseling:**

Diet: select foods low in salt.

Pt did not return with paperwork from ophthalmology-pt signed ROI form and document given to medical records to obtain records

Pt instructed to use sun glasses as directed

BP recheck on 10/18/18-notify this provider if level above 140/90 via telephone encounter  
pt will flu in 2 weeks for update of records

Pt voiced understanding to all instructions and will comply

Pt given hydrocortisone cream 1%-apply to area bid x 7 days as needed-wash hands after use-tc via sick call if no improvement

Pt instructed to r/c sooner if symptoms worsen or no relief  
Pt instructed to take dose of medication when he returns to dorm-pt educated on the importance of compliance to HTN regimen especially since bp is elevated-if bp continues to be elevated please consider pill line administration to ensure compliance to medication and better bp control.

**Follow Up**

2 Weeks

Disposition: Resident returned to housing area

**Appointment Provider: Denise Morrison, PA**

**Electronically signed by Denise Morrison PA on 10/17/2018 12:46:07 (Central Daylight Time)**

**Sign off status: Completed**

**Addendum:**

10/17/2018 10:50 AMMorrison PA Denise C > Pt questioned about elevated bp and pt reported he did not take his am medication before leaving to his outside appointment. Pt states he normally takes it but forgot today. Pt states he is completely asymptomatic at this time. Pt denied any SOB, CP, palpitations, headache or dizziness. Pt states he will take his medication as soon as he returns to his dorm.

## Review of Systems

### General/Constitutional:

Change in appetite denies. Chills denies. Fatigue denies. Fever denies. Headache denies. Lightheadedness denies. Night sweats denies. Sleep disturbance denies.

### Ophthalmologic:

Blurred vision admits, in both eyes due to dilation of eyes during visit. Diminished visual acuity denies. Discharge denies. Dry eye denies. Flashes of light in the visual field denies. Floaters in the visual field denies. Itching and redness denies. Pain denies. Red eye denies.

### Skin:

Blistering of skin denies. Discoloration denies. Dry skin denies. Eczema denies. Hives denies. Itching admits, that is mild and antecubital areas of both arms. Keloid formation denies. Moles(s) denies. Nodule(s) denies. Photosensitivity denies. Rash admits, on the extremities, that is mild. Rash on feet denies. Scaly lesions of skin/scalp denies. Skin cancer denies. Skin lesion(s) denies. Skin oozing denies. Sun sensitivity denies. visual acuity-not done today secondary to recent dilation of eye during visit today.

## History of Present Illness

### Patient Identification:

Patient properly identified by 2 sources including: *Whist Band, ID Badge, Verbally*  
Chaperone Present? *No*

What language do you speak? *English*

Interpretation provided? *Patient speaks English fluently*

### Narrative:

S. Pt returned from outside ophthalmology appointment. Pt states he was not able to see the doctor due to the doctor having another surgical appointment. Pt states the nurse only dilated his eyes. Pt states he is ok but was supposed to be evaluated today to see if the silicone in right eye would be removed secondary to experiencing discomfort at times in right eye. Pt also requesting cream for rash at antecubital area of both arms x2 days. Pt states he rested on the mattress without a sheet and now has a rash at site. Pt denied any pain, discharge, or redness at site. Pt only reports to itching that comes and goes. Pt denied anything crawling on him or open wound. Pt did not voice any other questions or concerns. Pt denied having any pain at this time.

### Pain Assessment:

Pain

Are you currently in pain? *No*

## Vital Signs

	Temp

	HR	
76 in	10/17/2018 10:12:36 AM	Denise Morrison PA

Pt did not report having any pain.

## Examination

### General Examination:

GENERAL APPEARANCE: in no acute distress, well developed, well nourished.

EYES: BOTH EYES: pt wears sun glasses; mild injection secondary to recent dilation at outside visit; exam limited as a result.

SKIN: Fine macular/papular rash noted at antecubital areas of both arm; no nits, or burrows noted. Mild erythema noted. No open wound or discharge noted. No hives..

HEART: no murmurs, regular rate and rhythm, S1, S2 normal.

LUNGS: normal, clear to auscultation bilaterally, no wheezes, rales, rhonchi.

## Assessments

1. Irritant contact dermatitis, unspecified cause - L24.9 (Primary)
2. Total retinal detachment, right eye - H33.051
3. Essential (primary) hypertension - I10

## Treatment

1. Irritant contact dermatitis, unspecified cause  
Slart Hydrocortisone Cream, 1 %, 1 application, Externally, BID, 7 days. 1, Refills 0, KOP: Yes, Drug Source: Stock

2. Total retinal detachment, right eye

Notes: Please check visual acuity at next visit- unable to do it today since pt had eyes dilated.

3. Essential (primary) hypertension

Notes: Pt instructed to take dose of medication when he returns to the dorm since he missed am dose- pt educated on the importance of compliance to medication to prevent elevated bp and future consequences of uncontrolled HTN- pt voiced understanding and will comply.

## Review of Systems

### Ophthalmologic:

Blurred vision denies. Diminished visual acuity denies. Discharge denies. Dry eye denies. Flashes of light in the visual field denies. Floaters in the visual field denies. Itching and redness denies. Pain denies. Red eye denies. Vision screen denies.

### Respiratory:

Change in breathing pattern denies. Chest pain denies. Cough denies. Hemoptysis denies. Pain with inspiration denies. Shortness of breath at rest denies. Shortness of breath with exertion denies. Sputum production denies. Wheezing denies.

### Cardiovascular:

Chest pain at rest denies. Chest pain with exertion denies. Claudication denies. Cyanosis denies. Difficulty laying flat denies. Dizziness denies. Dyspnea on exertion denies. Fluid accumulation in the legs denies. Irregular heartbeat denies. Orthopnea denies. Palpitations denies. Shortness of breath denies. Weakness denies. Weight gain denies.

### Psychiatric:

Anxiety denies. Audition/visual hallucinations denies. Delusions denies. Depressed mood denies. Difficulty sleeping denies. Eating disorder denies. Homicidal Thoughts denies. Inability to concentrate denies. Loss of appetite denies. Mental or Physical abuse denies. Stressors *nothing*, that is mild. Substance abuse denies. Suicidal thoughts denies.

## Reason for Appointment

1. Segregation Clearance

## History of Present Illness

### Patient Identification:

Patient properly identified by 2 sources including: ID Badge, Verbally

Chaperone Present? Yes

Chaperone Name: GEO OFFICER

What language do you speak? Spanish,

Interpretation provided? Patient speaks English fluently

The patient stated "two guys attempted to jump me, I was just minding my business in chow. I can't let no body jump me." The patient denied any injuries and offered no complaints. The patient was educated the need to remain calm and not to engage in violent activity. The patient was educated to take his medication upon return to the dorm. The patient reported he always takes his meds and he is ok. The patient was sporting his black glasses but did not have any difficulty with vision. No changes noted. All needs met in a timely manner. Safety maintained.

### Pain Assessment:

Pain

Are you currently in pain? No

### Segregation:

Segregation Clearance

Evaluated for Segregation Placement on: 10/23/2018 at 06:40

Are you currently thinking about killing or harming yourself? No

Do you have any medical complaints prior to going into segregation? No

### Chart Review

History of mental illness or have any mental health encounters at current facility? No

Unresolved or acute medical problems that contraindicate Segregation housing? No

### Actions Taken

Appointment created or telephone encounter assigned to MD/APP, Dental, MH, or SC? No

## Examination

General Examination:

GENERAL APPEARANCE: alert, well hydrated, in no distress.

## Assessments

Notified by GEO correctional officer that they had a detainee in Dorm H-17 who was complaining of a headache and wanted some medication. They advised that this was a high-dorm and would require additional officers to bring up. I advised I would go and assess the detainee and proceeded to H-17 and he was brought to the exam room, in handcuffs. I verified his name per ID card and verbally. I asked him what was going on and he advised that he had a headache to the right side of his head and has had it for one (1) to two (2) years, ever since he detached his right retina. Stated he has been sleeping all day off and on and around 2000 hrs, his lower back began hurting; pain increases with

## Review of Systems

### General/Constitutional:

Change in appetite denies. Chills denies. Fatigue denies. Fever denies. Headache denies. Lightheadedness denies. Night sweats denies. Sleep disturbance denies. Weight gain denies. Weight loss denies.

## Reason for Appointment

1. Seg clearance

## History of Present Illness

### Patient Identification:

Patient properly identified by 2 sources including: ID Badge, Verbally

Chaperone Present? No

What language do you speak? English

Interpretation provided? Provider fluent in patient's native language

### Pain Assessment:

Pain

Are you currently in pain? No

### Segregation:

Segregation Clearance

Evaluated for Segregation Placement on: 10/24/2018

Are you currently thinking about killing or harming yourself? No

Do you have any medical complaints prior to going into segregation? No

### Chart Review

History of mental illness or have any mental health encounters at current facility? No

Unresolved or acute medical problems that contraindicate Segregation housing? No

Actions Taken

Appointment created or telephone encounter assigned to MD/APP, Dental, MH, or SC? No

### Past Medical History

Self Reported Hx of Retina detachment

### Allergies

NKDA

### Review of Systems

Neurologic:

Low back pain admits, that is new.

### Reason for Appointment

1. Seg rounds

### History of Present Illness

Patient Identification:

Patient properly identified by 2 sources including: ID Badge, Verbally

Chaperone Present? Yes

Chaperone Name: GEO Officer

What language do you speak? English

Interpretation provided? Patient speaks English fluently

Pain Assessment:

Pain

Are you currently in pain? Yes

The pain is located : right side lower back

The severity of pain is rated at 10/10

The severity of the pain is moderate to severe

The pain began 1-2 days ago

The character of the pain is aching, is persistent

The associated symptoms are tender to touch

The pain is aggravated by any physical activity

The pain is relieved by OTC Ibuprofen

Segregation:

Segregation Rounds

Are you currently thinking about killing or harming yourself? No

Do you have any medical complaints or concerns at this time? No

Was referral made to clinical services (MD/MLP, Dental, MH, Sick Call)? No

Narrative:

Patient complained of lower back pain and is requesting to be seen by provider to have pain medication prescribed for night time. Patient stated medication given during sick call helps but is having pain during the night. Patient stated he had ibuprofen 600mg prescribed previously for recurrent headaches and eye pain.

### Examination

Segregation:

Segregation Evaluation: Patient has spontaneous speech and answers questions appropriately, in no acute distress, well developed, well nourished, Patient appears to be within normal limits of behavior, affect, and cognitive functioning, Patient does not appear to have any acute or unresolved medical conditions that may worsen in segregation, Patient does not appear to have active psychosis, mania, suicidal ideations or homicidal ideations.

### Assessments

Health Maintenance Related to Segregation Placement.

### Treatment

1. Others

Start Ibuprofen Tablet 200 MG, 2 tablet with food or milk as needed, Orally, Once A Day, 1 day, 2 Tablet, Refills 0, KOP: Yes, Drug Source: Stock

Notes: Treated per RN Guidelines (2008 Edition)

OTC medication given and informed on dosage, times, route, and side effects of medication.

Advised the patient to avoid excessive exercise of affected area

Instructed to return to sick call PRN if symptoms continue or worsen.

Detainee verbalized understanding.

Ambulated out of sick call room with steady gait.

### Preventive Medicine

Patient educated on how to access medical / mental health / dental care while in Segregation.

  - Doxylamine HCl-Timolol Mcl 22.3-6.8 MCM Solution 1 drop into affected eye BID, stop date 01/24/2019, KOP: No, Drug Source: In House Pharmacy

## Past Medical History

Self Reported Hx of Retina detachment

## Reason for Appointment

1. SEG ROUNDS.

## History of Present Illness

### Patient Identification:

Patient properly identified by 2 sources including: ID Badge, Verbally

Chaperone Present? Yes

Chaperone Name: GEO Officer Bennett

What language do you speak? English

Interpretation provided? Provider fluent in patient's native language

### Segregation:

Segregation Rounds

Are you currently thinking about killing or harming yourself? No

Do you have any medical complaints or concerns at this time? No

Was referral made to clinical services (MD/MLP, Dental, MH, Sick Call)? No

## Examination

### Segregation:

Segregation Evaluation: Patient has spontaneous speech and answers questions appropriately, in no acute distress, well developed, well nourished, Patient appears to be within normal limits of behavior, affect, and cognitive functioning, Patient does not appear to have any acute or unresolved medical conditions that may worsen in segregation, Patient does not appear to have active psychosis, mania, suicidal ideations or homicidal ideations.

## Assessments

Health Maintenance Related to Segregation Placement

## Preventive Medicine

Patient educated on how to access medical / mental health / dental care while in Segregation.

## Past Medical History

Self Reported Hx of Retina detachment

## Allergies

NKDA

## Review of Systems

### Ophthalmologic:

Blurred vision admits, in the right eye, with gradual change. Diminished visual acuity admits, in the right eye.

### CVD:

Chest pain denies. Shortness of Breath denies. Palpitations denies. Peripheral vascular disease denies. Orthopnea denies. Leg Swelling denies. Claudication denies. Heart attack/surgery denies. CVA/Stroke denies. Rheumatic fever denies. Dyslipidemia denies. Headache admits. Syncope/Dizziness denies. Kidney Disease denies. Weight Gain/Loss denies. Blurred vision admits. Hypoglycemic episodes denies.

## Reason for Appointment

1. Flu with eye specialist records

## History of Present Illness

### Patient Identification:

Pt was here to flu on eye specialist recommendations. However patient self reports that when he went for the last appointment on 10/17 he was not seen because the doctor was in surgery. No recent medical records are available to view. Pt was on pill line because he was in SEG, and was refusing medication. However pill line RN reports patient is no longer on pill line and meds were moved to KOP.

### Patient Identification

Patient properly identified by 2 sources including: ID Badge, Verbally

Chaperone Present? No

What language do you speak? English

Interpretation provided? Provider fluent in patient's native language

### Pain Assessment:

Pain

Are you currently in pain? No

## Examination

### General Examination:

GENERAL APPEARANCE: in no acute distress, well developed, well nourished.

HEAD: normocephalic, no scalp lesions.

EYES: RIGHT EYE, pupil(s) dilated, pupils not equal in comparison to the Lt, Rt: round however sluggish reactive to light and accommodation. LEFT EYE, pupils equal, round, reactive to light and accommodation, upper eyelids normal, lower eyelids normal.

SKIN: normal, no rashes, no suspicious lesions.

HEART: no murmurs, regular rate and rhythm, S1, S2 normal.

LUNGS: normal, clear to auscultation bilaterally, no wheezes, rales, rhonchi.

NEUROLOGIC: alert and oriented, cooperative with exam, motor strength normal upper and lower extremities, normal exam, normal strength, tone and reflexes, sensory exam intact.

## Assessments

1. Essential (primary) hypertension - 110 (Primary)
2. Unspecified anomaly of pupillary function - H57.00
3. Total retinal detachment, right eye - H33.051

## Treatment

1. Essential (primary) hypertension

Notes: Daily BP checks x7 days. Encouraged patient to adhere to blood pressure medication.

2. Total retinal detachment, right eye

Referral To: Ophthalmology

Reason: Retinal detachment/flu

## 3. Others

Action Started: BP checks

## Follow Up

1 Week

Diagnosis: Patient returned to housing area

**Procedure Codes**

2010F VITAL SIGNS RECORDED  
D0191 ASSESSMENT OF A PATIENT

Disposition: Resident returned to housing area
